- Describe the current options for management of Chronic Ear Infections and Cholesteatoma.
- Outline the new guidelines for diagnosis and treatment of Chronic Rhinosinusitis.

- To understand any causative relationship between chronic cough, frequent clearing of throat and vague sore throat, and respiratory tract pathologies.

- To define the relationship between Gastroesophageal Reflux Disease and chronic cough, hoarseness and sore throat.

- Outline the advances in management of snoring and Obstructive Sleep Apnea.

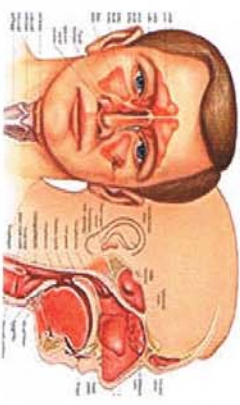

- To determine the new developments in diagnosis and treatment of Laryngeal Cancers.

- To learn if there is a guideline for Tonsillectomy, Adenoidectomy and Ventilation Tubes.

- What is the best time to refer the patient for those procedures?

- To get the latest guideline for Thyroid Nodules and Thyroid Cancer Management

- The workshops are practical stations with videos or real patients where the participants can have hands on and discussion in small groups to get the best clinical exposure.
